

Old World Style For Your New Houses

VINYL SIDING ADDS LASTING BEAUTY.

The Italianate style – inspired by the villas of Italy – can bring the flavor of the Old World to your newest projects. Keep the look authentic with today’s vinyl siding, architectural trim and accessories. With profiles like traditional clapboard or Dutchlap, hexagon shapes for accents, and decorative details, vinyl and other polymeric siding update a classic. And keep it fresh with almost 400 colors certified for color retention. Say *buon giorno* to beauty that endures.
