

# ADD MORE TO FIVE, FOUR AND A DOOR

## VINYL SIDING BRINGS OUT BEAUTY.

The strictly symmetrical Georgian style keeps design simple. Today's vinyl siding can keep it simply beautiful. The Georgian configuration of window rows and a centered entryway inspired architects to nickname it "five, four and a door." But vinyl siding, architectural trim and accessories can make it so much more. With a variety of clapboard profiles, authentic molding and other decorative touches. All engineered to last for decades, by George.
